SKILLS

JavaScript

TypeScript

React

Next.js

Angular

HTML, CSS

SCSS/Sass/Tailwind

Node.js, Express.js

Ambitious Software/Web Developer With a Passion for Building Exciting Digital Experiences

- Several years of work experience with React, JavaScript/TypeScript, HTML and CSS
- Have used Angular and Vue.js in a few hobby projects
- Recently learned C#, .NET and Entity Framework
- Focus on clean, DRY and SOLID code
- Focus on excellent, high-quality UX/UI that is user-friendly and responsive
- Well-versed in CSS Box-model, Flexbox, Grid Layout, Media Queries, Transitions, Animations

I'm able to study by myself and a fast learner. As a person, I am geeky, a tinkerer, humble, detail-oriented, patient and always willing to help.

Firebase, Google Cloud

Webpack/Vite

Figma, Photoshop, Illustrator, InDesign

SEO

WCAG webtilgængelighed

C# .NET

Vue.js

Docker

HOBBIES

I have practiced various sports: padel tennis, badminton, climbing, longboard, snowboard, ice skating and boxing. Now, however, I spend most of my free time self-studying programming, getting faster at solving a Rubik's cube and occasionally playing computer games. I'm big fan of VR in particular.

I love to travel and explore the unknown. In 2018 I traveled around Asia and Southern Europe as a backpacker.

Webmaster / IT-specialist • C.L. Seifert

2014 - 2017

Operation and optimization of WordPress, Magento and Podio, as well as automation via Globiflow. UX and UI design. SEO and Google Analytics. IT support. Develop and send out HTML e-mail newsletters. Management of outsourced developers.

Internship as a Web Developer • Bach & McKenzie ApS

2013 (3 months)

Internship as a Web Developer • Guideservice Danmark

2012 (3 months)

EDUCATION

C# .NET course • Itucation

Apr 2024 - May 2024

.Net Core, Entity Framework, SQL Server, OOP, MVC, Blazor

Professional Bachelor in Web Development • EAL

Sep 2012 - Jan 2014

Multimedia Design • Erhvervsakademiet Lillebælt (EAL)

Sep 2010 - Sep 2012

RESULTS

I have developed more than 15 Zendesk JS/React apps and Zendesk themes during my time at Proventic, which have been to the great satisfaction of both customers and users. Some were developed for companies and are installed privately in their Zendesk.

React Zendesk apps that are published by Proventic (scroll past all the text for the apps):

<https://www.zendesk.com/marketplace/partners/5189/proventic-aps/>

I developed the help center page for Roskilde Festival which can be found here: <https://faq.roskilde-festival.dk/hc/da>

In addition, I have also developed various backend services using TypeScript, NodeJS, Express.js and Firebase.
